DETAILED ACTION

Drawings

1. The drawings were received on 06-09-05. These drawings are approved.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 11,19,24, 28 – 30 are rejected under 35 U.S.C. 102(e) as being anticipated by Dvorak (US 6,911,874).

The reference by Dvorak discloses an ultra-wideband pulse generation circuit for modulating a bit stream, see figure 2, with bit stream generator(201), and selectively inverting by way of (203,204, and 206) and selectively delayed by

way of (211,212); a new phase signal being formed at the output of 203 and a delay signal formed at the output of 214; the method steps being inherent to such structure.

Allowable Subject Matter

4. Claims 1-10 are allowed.

5. Claims 12-18, 20-23, 25-27, and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
